ILLINOIS CENTRAL **CUTS ITS DIVIDEND**

From a 7 to 5 Per Cent. Basis.

The directors of the Illinois Central Railroad yesterday declared a semi-annual dividend of 21/2 per cent. on the outstanding \$109,206,000 stock of the company for the six months ended June 39. 1913, a reduction of 1 per cent. from the customary semi-annual dividend. This puts the company on a 5 per cent, basis. It makes a total of 6 per cent. paid on the stock for the year ended June 30 last, out of 6.01 per cent. carned, and is the first break in the company's record of ace the stock was put on that basis in

Of the outstanding stock of the Illinois Central, the Union Pacific owns \$22,-\$00,000 through direct control and \$9,200 .-

pf. interest at the moment. This is the fourth favorable steel statement within the last few weeks. Lackawanna, Republic and inland companies all having shown favorable carnings statements before it. Manufacturers continue cheerful despite the fact that new business is but one-half of current shipments.

The Daily Iron Trade says: "The Toungstown Sheet and Tube Company has bought 75,000 tons of valley pig iron half of the tonnage being Bessemer and other half basic. This is the largest pig iron transaction in several years. It paid about \$14.40 delivered at its ware-house for the basic and \$15.65 for the Bessemer on the same basis. The American Steel Foundries Company has bought 1,500 tons of basic at \$14.25 valley. The market is also strengthening at Chicago. Buffalo and Cleveland. Good sales of Connellsville furnace coke at \$2.50 for August spell a victory for producers. Steel sheets settle at the former minimum price.

Supreme Court—Special Term—Trials—Adjourned for the remained for the

is more impressive than the actual market facts of the week. Such a showing from a period so recent and the knowledge that current operations are yielding profits fully as good are favorably interpreted, even though new buying of finished steel is less than half current shipments.

"Pig iron has given more proof of a turn than in any week of the long succession of declines and repeated announcements of the bottom.

"The pig iron situation seems to have reached the familiar second stage of a buying movement produced by prices that leave out profit. This firmer attitude is helped by the July reduction in production of merchant iron.

helped by the July reduction in production of merchant iron.
"It is noteworthy that a number of heavy melters of iron have thus far held aloof and that in the sales sheets large lots are the exception. Much foundry iron must yet be bought for the second half if the present melt is kept up.
"The implement makers have bought carefully in spite of the history of the revision of such contracts when the market has declined. Canadian buying of implements is considerably less than last

plements is considerably less than last year, though crop prospects are all they were a year ago. The limitations on credit are a factor there as well as on this

"With a few exceptions, as in tin plates and some gauges of sheets, buyers now find that thirty day deliveries can be had on steel products. Under such conditions heavy contract buying will not soon be resumed."

MILLIKEN ASSETS TO BE SOLD. Encumbrances.

The creditors of Milliken Bros., contractors, and others interested in the bankruptcy proceedings in which they are involved, met at the office of Stanley W. Dexter, referee in bankruptcy, yesterday to arrange terms and a date for the sale of the assets.

COURT CALENDARS THIS DAY.

Of the outstanding stock of the IIII.

Mois Central, the Union Pacific owns \$220...

600 more through its ownership of the Railroad Securities Company. The Jeduction of 1 per cent in the semi-annual dividend of the IIIInois Central amounts [6] \$217,000. or about a tenth of 1 per cent. on the Union Pacific's common stock. President Markham said that the general business outlook of the road for the year was good and that the bright prospects ahead after three years of heavy financial losses due to floods, together with the fact that one semi-annual disbursement of 3½ per cent, has already been made during the fiscal year, seems to indicate that the dividend rate has not effinitely been placed on a 5 per cent. Dasis.

The report of the road for the year ended June 20, though subject to final adjustment, shows that the surplus available for dividends was \$5,575,068, a gain of \$3,500,500 over the year previous. This is equivalent to 6.01 per cent, on the same stock last year.

President Markham denied the report that the road recently had borrowed \$750,000 from a Chicaso bank at 6½ per cent. He said, however, that the road had fordered considerable new equipment, including \$6,500 new cars. A part of this will be taken care of out of an issue, which will lotal somewhere in ghe neight.
